Sprint checklist

- ✓ Saving templates so it appears on custom template list (make sure title saves, make sure colours stay when you save)
- ✓ hosting online
- ✓ setting up different accounts, coordinator accounts, admin accounts, subject coordinator cannot change base templates, but can make copy
- ✓ when subject coordinator opens a base template, they only have the option to make a copy, which will take you to the template editing page
- ✓ will need to implemented the duplicate buttons on the template selection page
- ✓ exporting the ai use scale
- ✓ when exporting an SDF, want to name file with title and subject tagging
