Sep 24, 2025 (PR: Sep 8, 2025)	@Federico Ferracin	Prototype Version 1 from Sept_8th

		<ul style="list-style-type: none"> • Mainly Frontend Design for demonstration, not fully integrated • Login page was ready and integrated • Loading of custom templates completed
Sep 24, 2025	@Federico Ferracin	<p>Prototype Version 2 from Sept_24</p> <ul style="list-style-type: none"> • Workable prototype with all pages functional • Very close to a bare minimal MVP for the web app • All table manipulation buttons work drag and drop works and is approved • Can save templates already, with minor issues that

		<p>are fixed later that night</p> <ul style="list-style-type: none"> • Can be seen in latter versions: fix was in Commit #108
<p>Oct 11, 2025</p> <p>(late due to bug fixes: should've been Oct 6, 2025)</p>	<p>@Federico Ferracin</p>	<p>Prototype Version 3 from Oct 11 (belated main push, all bugs fixed with some new functionalities too)</p> <ul style="list-style-type: none"> • Workable prototype with following new features and updates: <ul style="list-style-type: none"> ◦ PDF export ◦ Added university links to SRep database ◦ Unit Tests, Integration Tests ◦ Subject Tagging ◦ Sidebar Bug fixed ◦ Cell search <ul style="list-style-type: none"> ▪ displays "No Results Found" if no match

		<ul style="list-style-type: none"> ◦ Separate views for different user types (different visibility scope and actionable items): <ul style="list-style-type: none"> ▪ Admin ▪ Subject Coordinator ◦ Admin can create subject space (new account for subject coordinators) ◦ Passowrds can be hidden or shown ◦ SRep scale (Levels and auto incremented content) editable for admin (Frontend component added) <ul style="list-style-type: none"> ▪ TO BE INTEGRATED
Oct 15, 2025	@Federico Ferracin	Prototype Version 4 from Oct_16 (updating main branch with most recent updates to be included in Heroku CD too).

- SRep UseScale editing functionality added
 - can only be edited by Admin
- Unit Tests updated accordingly with updates from other branches, with addition of two new test cases in UseScaleBlock.test.jsx component
- Notifications functionality for SRep AI Use Scale Levels now implemented
- UseScale Row bug that occurred on previous demo is now fixed
- Tag placeholder bug fix
- Copy base template problem fix

CI/CD Clarification

- The heroku setup takes place in a separate forked version of this repository to keep the setup and environment clean and isolated
- The automated deployment has been successfully implemented
- With every update on this repository's MAIN branch, the forked repository's MAIN branch is also updated accordingly and is in sync with this MAIN branch
- On every Push | PR, the Github Actions workflow will automatically deploy the web

app into our

heroku app
