• **Type of change:**

- ☒ CSS
- ☐ Markup
- ☒ Component Refactor
- ☒ Clean up

• **Affiliated areas:**

- ☒ Base Template Section
- ☒ Custom Template Section
- ☒ Dashboard
- ☒ Horizontal Sidebar
- ☒ Sidebar
- ☒ Squares
- ☒ Use Scale Block
- ☒ Vertical Dropdown
- ☒ CSS Styling
- ☒ Login Page
- ☒ Main Template
- ☒ Use Scale Page

• **Intended Visual Changes:**

- ☐ None

## Acceptance Criteria

- ☒ Flow in scope still works
  - ☒ Login → Template → AI Use Scale
- ☐ No unintended visual regressions at breakpoints (zoom in/out)
  - ☒ 25% - 300%
  - ☐ ⚠️⚠️ 400%
  - ☐ ⚠️⚠️ 500%
- ☐ No 404s or redirecting problems
  - ☐ ⚠️ 405 with custom templates

## Test Matrix

OS	Browser	Widths (%)
Windows	Chrome	25% - 500%

## Data, Flags, Prerequisites

- **Accounts / fixtures :**
  - Admin account (default full access)
- **Feature Flags / env vars :**
  - None
- **3rd Party Deps :**
  - None

## Risk Notes and Hotspots

- ☒ Unintended Visual Regression
- ☒ Able to close horizontal sidebar
- ☒ Check if all pages are still aligned with Prototype version

## Evidence & Logging

-  Will contain:
- Screenshots of workflow (ensure consistency)
  - Before / after comparisons of layout

## Problems Found:

- Zooming at 400% and 500%
  - distorts profile picture shape
  - at 400% → distorted
  - at 500% → disappears

## Changes Found (to be confirmed with Frontend Lead)

- style.css
  - all modularized now
  - was previously big chunk
    - containing: sidebar, square, dashboard, topbar, etc.
  - now contains topbar only
    - with other components in new files
    - →sidebar
      - →items inside sidebar
    - →dashboard
    - →square
    - →base templates section
    - →custom templates section
    - →login
- Login page was using Frontend only version
  - not backend integrated
- Custom Templates
  - redirect to Error 405
  - with link:
    - <http://localhost:5000/login>
